About This Game

This is the hardest, most challenging, horror puzzle game you will ever play.

30+ hours of sanity-testing puzzles over the course of 10 horror filled levels.

You are Kaetheran, an extremely powerful psionist with a flair for cyberpunk style. You have awoken in a dank sewer without your mind powers.

You must figure out how to escape the sewer without losing your life while the blood witch Annalinnia tries to make you insane.

Slowly regain your powers while you avoid tricks, traps, and terrifying sounds as you make your way to freedom.

Kaet Must Die! is a first person horror puzzle suspense game that pits you up against the clock in horror filled sewers and mountain murder mazes. You must search for clues to reach the next levels in order to escape.

Each level is filled with heart-pounding excitement as you race to discover the way out before the lights go out, your sanity is gone, and Annalinnia, the Blood Witch, comes for you!

MEANWHILE

Begin the story

This is not the firework game you are looking for.. The game is very sloppy and in it's current state is a sad excuse for a Video Game. It consists of multiple spelling mistakes, including "Brining" instead of "Bringing." The worst part is The Westport Independent might be considered finished. There are many bugs and exploits, and one can easily lose the game. The employees, contrary to how the description claims, aren't very "reactional." This game was nothing as described or expected. It runs terribly, and there is a very randomized and low-quality system for both Popularity and Suspision.

[SPOILERS OVER]

Don't get the game, get it when it's properly completed, if ever.

Adorable, charming and funny game with a lot of heart in it. Super easy to pick up and play with a friend and loads of fun for less than the cost of lunch, I almost wish I had bought it at full price instead of on sale!

Pros: Easy to pick up and play alone or with a friend
Great sense of humor
Loads of charming little details all throughout the game.
Simple, easy to understand controls
Surprising amount of depth
SO MANY GOOD DOGS

Cons: Needs a larger soundtrack
Needs some more types of stages hazards
Needs more options for audio and video
Needs a proper tutorial

Please keep working on this game, Vagabond Dog, this is great stuff!. Great game xD. My three year old enjoys playing this game.

I've also managed to get motion sickness for the first time from a video game.

meep. the magazine is a different colour in game, :(other than that it is well alright.. Amazing idea . So happy PSH can live on through attom universe . Even happier that its avalable on pc. as i didnt want to buy a ps4 just for this game. It's one massive let down though is that it constantly crashes . i mean 58 crashes in less that 30 mins game time? 0.0 and random server disconnects. such a shame.. A first-person adventure game, which has an absolutely incomprehensible story, but many riddles that are still so much fun you just keep playing.. the head bobbing is to much good game but the head bobbing is making me sick you dont need it.
some nip peck like the jump is to slidy and not able to pause the game and save it but it is a good game....ish. You guys want to try some "The Endless Empty"? You're gonna get so blasted your minds will blow chunks into the Milky Way. And what better way to celebrate a GREAT game than with a good old fashioned Milky Way chunk blow, hmmm?
